

Publisher and duration of the contract	<i>IOP - Institute of Physics (2022-2025)</i>
Disciplinary areas covered	Physics, Chemistry, Geology etc.
Characteristics of the contract	Access to all the journals available on the <a href="#">IOPscience extra</a> platform and the possibility for authors affiliated with the Scuola who are also <i>corresponding authors</i> to publish open-access articles in the three-year period 2023-2025 at no extra cost.
Types of articles publishable in open access	<i>Papers, special issue papers, reviews and/or letters.</i>
Journals in which publishing in open access is possible	In all hybrid and gold journals included in the <a href="#">IOPscience extra</a> platform. The contract does not include the freely accessible journals of the <i>American Astronomical Society</i> .
Workflow for publishing in open access	<p>The workflow of open-access publication does not involve validation of the affiliation of the authors prior to publication, and is briefly organised in the following stages:</p> <ul style="list-style-type: none"> <li>✓ The <i>corresponding author</i> will be identified on the editorial platform by means of at least one of the following parameters: name of the institution/affiliation or email domain (sns.it);</li> <li>✓ for eligible articles, open-access publishing will be proposed to the <i>corresponding author</i>;</li> <li>✓ in the case of a positive response from the <i>corresponding author</i>, the article will be published in open access and the author will keep the <i>copyright</i>;</li> <li>✓ periodically the library will receive the lists of approved articles for the verification of the formal affiliation to the Scuola of the <i>corresponding authors</i>;</li> <li>✓ should the Institution not recognise the author as qualifying under the terms of the contract, the <i>corresponding author</i> will be offered the possibility to pay the <i>APC</i> outside the contract or to publish the article in subscription mode;</li> <li>✓ the retrospective conversion is possible of any eligible articles that missed selection by the publisher.</li> </ul> <p>The validation of the <i>corresponding author</i> takes into account the date of acceptance of the article on the part of the publisher independently of the date of the first <i>submission</i>.</p>
APCs cover	An unlimited number of open-access articles may be published.
Availability of the APCs for the current year	APCs available
Licence	Preferably <i>CC-BY</i> . The author retains the <i>copyright</i> .
